**“Delivering the Voices of Hibakusha
to the World”**

77th Memorial Day since the atomic bombing on August 6, 1945.

Barbara Reynolds, the founder of the World Friendship Center, had a consistent desire to “bring the voices of hibakusha to the world” and “abolish nuclear weapons.”

However, 77 years later, the abolition of nuclear weapons has not been achieved.

We welcome you to join us for these programs,
remembering those who lost their lives in the atomic bombing.
